NEWS FROM WNYU The Voice of New York University

In preparation for an exciting year of collegiate broadcasting WNYU began, this summer, an extensive renovation and modernization program designed to meet the needs of an expanding audience.

Starting early in the fall WNYU will join hands with WCAG, the radio station of the Communication Arts Group, to provide a complete radio service commencing at noon and continuing until 1 AM seven days a week. Broadcasts wil include music, news, specials of interest to the University community, and complete home and away coverage of the NYU Basketball games. This year, for the first time in collegiate radio history WNYU will carry a live and direct basketball game from the Mid-West at Northwestern University in Evanston, Illinois.

In a further effort to serve the University community WNYU and WCAG will continue in their efforts to obtain for the University student operated city-wide FM Radio. Progress towards this goal is proceeding steadily. With the advent of the WNYU-WCAG Network we are confident that this will be the first step towards WNYU-FM— The Voice of New York University.
